ClassNotes.docx Document

Readings.pdf PDF

PSY PDF

Make me a study guide for my Psych 101 section for midterms. Here's our class notes, readings and syllabus| 

### 3. ChatGPT will make a doc

The screenshot shows two side-by-side interfaces. On the left is the ChatGPT interface, which has a dark theme. It displays a message from the user requesting a study guide based on the syllabus, lecture notes, and slides. Below this, ChatGPT responds with a structured study guide for Psychology 101. The response includes a title, course overview, learning objectives, key topics, and concepts. On the right is a browser window titled "Psych 101 Studyguide". The page contains the same study guide content, with sections like "I. Course Overview & Learning Objectives" and "II. Key Topics & Concepts". The browser interface includes standard navigation buttons (refresh, back, forward, search, etc.) and a blue circular icon with a white letter "S". A small white arrow points from the bottom right towards the "Reason" button in the ChatGPT footer.

# Now you have a study guide to share

The screenshot shows a web browser window with two tabs. The left tab is titled "Psych 101 Study Guide" and the right tab is titled "Psych101 Studyguide". In the ChatGPT tab, a user asks for a study guide as a downloadable document that keeps the current formatting. ChatGPT responds by preparing the study guide and offers a download link. A large orange arrow points from the user's request in the ChatGPT tab to the "Key Concepts and Themes" section of the study guide in the Psych101 Studyguide tab.

Give me my study guide as a downloadable doc that keeps this formatting

I'll prepare your study guide as a downloadable document with the current formatting. One moment please.

Here's your study guide as a downloadable Word document with all the formatting intact:

## PSY 101 Midterm Study Guide

### Key Concepts and Themes

- 1. Introduction to Psychology**
  - 📚 **What is Psychology?**: The study of the mind and behavior. Psychologists look at how people think, feel, and act.
  - **Important Ideas:**
    - 💡 **Behavior Focus**: Psychology explains actions we can see and how they are shaped by thoughts and surroundings.
    - 🔬 **Science Focus**: Psychologists rely on evidence and careful observation to understand behavior.
    - 🌎 **Everyday Use**: Psychology helps improve learning, mental health, and workplace success.
- 2. Research Methods in Psychology**
  - 🧪 **Scientific Method**: A clear process to collect facts and make accurate conclusions.
  - **Key Steps:**
    - 🤔 **Hypothesis**: A testable guess about what will happen.
    - 🚩 **Experiment**: Testing the guess by changing and controlling certain factors.
    - 📊 **Data Collection**: Gathering facts from observations or surveys.
    - ✅ **Conclusion**: Analyzing the results to confirm or adjust the guess.

Pro tip: ask for a downloadable doc or PDF that keeps the formatting
